DC DOLBY.ATMOS
FEEL EVERY DIMENSION

Mix Stage

The Mix Stage is among the very best, being one out of only nine studios worldwide awarded with the prestigious Dolby ATMOS Premier Studio certification.

The Mix Stage is designed with absolute perfection in mind. Like all our rooms, the comfort is of the highest level, providing directors, producers, re-recording mixers and sound designers with a workspace and tools optimal for the creative workflow. Equipped with perfectly engineered acoustics and no less than 51 Alcons speakers you'll hear every critical mix decision in the greatest detail whether it's ATMOS, 7.1, 5.1 or ATMOS Home Entertainment.

Perfect image quality is achieved with a Sony SRX-R510P 4K DCI projector and a Severtson SAT-4K woven projection screen. We can play DCP's, Blu-Ray/DVD, Netflix, Apple TV etc.

The Avid S6-M40 console is equipped with display modules, dedicated EQ and dynamics sections and a post module.

Multiple powerful Pro Tools systems are easily accessible via an IHSE KVM matrix. Want to bring your Nuendo-, NLE or color grading rig? Just plug it in and you're ready to go.

TECH SPECS

DIMENSIONS

135m²

CONSOLE

Avid S6 M40-32 with dedicated EQ and dynamics modules and post module.
